## General Information

### Short summary

A Cypriot company which manufactures and distributes quality PVC gaskets, rigid plastics accessories and rigid PVC extrusion profiles for the construction market is looking for potential companies (i.e. importers, distributors, buyers) under supplier agreement, to supply and distribute company's products in their countries.

### Full description

A Cypriot company, which was established in 1991, operates in the production of PVC gaskets, rigid plastic accessories and rigid PVC extrusion profiles.

The company's products are intended for the construction industry. These are:

- top quality PVC gaskets and rigid plastics accessories for aluminium door and window, curtain wall systems, Facades, Balconies, Building systems etc.
- rigid PVC profiles which provide a good balance of stiffness, impact resistance and UV stability.

The company offers custom-made solutions for any kind of its products.

Their products are designed to improve functionality, increase productivity, and allow energy savings. Their lines are of the latest technologies on the market, guaranteeing customers a better quality of products. They carry strict quality

controls to comply with measurements and standards of the product. In addition to that, the company is accredited with the certification of Quality Management System ISO-9001.

The company has specialized personnel for the manufacture and supply of gaskets made of PVC material.

With a focus on producing the highest quality plastics, the company is dedicated to continually improving its product with new high-end techniques and innovate solutions, adding thus new products to its portfolio.

The company has promotional materials in English language and can provide training to potential partners to better inform them about the use and features of its products.

Also, the company attaches great importance to stable and long-term cooperation with its partners and customers.

#### Advantages and innovations

With 30 years of experience on their side, the company aims to continue providing products of optimum safety and integrity. They offer pioneering products and solutions and constantly strive to improve each aspect of their activities. All their products are designed to meet not only their costumers' requirements, but also to help minimize their impact on the environment.

The company is certified with the Quality Management System ISO-9001.
