Full description

Ukrainian company helps entrepreneurs to create individual packaging made of polypropylene, which preserves the product in its original form and favorably presents it on the market.

Company's history began in 1998 with the production of film for flower bouquets. Over time, manufacturer began to expand the range and produce packaging for any food and non-food products. The main office, production shop and wholesale and retail warehouse of the company are located in the city of Dnipro.

FILM IN A SPOOL WITH PRINTING PERFORATED

This product is suitable for producers of freshly cut flowers (greenhouses, wholesalers).

Advantages of the film with printing and perforation:

- Printing a logo - will provide recognition of a trade mark.
- Convenience of packaging - the film is simply soldered, its usage is optimal for automatic packaging lines.
- Air exchange - due to the presence of holes, products and goods preserve their qualities, while being in reliable packaging.
- Fast removal of excess moisture - products keep the freshness longer, and moisture does not accumulate in packaging.
- Wear resistance - the material has high strength and resistance to temperature changes.
- The minimum batch of delivery is from 100 kg

TECHNICAL SPECIFICATIONS:

Film Material - BOPP

Film Density - from 20 to 40 micrometres

Film Width (micro perforation) - from 150 to 1000 mm

Film Width (macro perforation) - from 150 to 500 mm

Film Width (without perforation) - from 150 to 1200 mm

Number of printing machines - 4 pieces

Minimum Width Seal - from 180 to 1200 mm

Print Pitch - to 600 mm

Lineature - from 60 to 124 lpi

Spool Diameter - from 200 to 1000 mm

Number of colours - from 1 to 8

CONE WITH CLIP TRANSPARENT AND WITH COLOUR PRINTING

This product is suitable for producers of freshly cut flowers (greenhouses, wholesalers). Advantages of cone bags with clip and colour printing:

- Cone packages with a clip – speed up manual packaging and workers efficiency.
- Printing a logo - will provide recognition of a trade mark.
- Wear resistance - the material has high strength and resistance to temperature changes.
- Convenience of packaging - plants can be packed as quickly and beautifully as possible in a package.
- Protection of a plant - the package gives to a plant an optimum form and keeps from mechanical damages.
- Minimum batch of delivery is from 100 kg

TECHNICAL SPECIFICATIONS:

Film Material - BOPP,

Film Density - from 25 to 100 micrometres

Bottom Width - from 50mm to 200mm

Upper Width - from 170mm to 700mm

Height - from 200mm to 1000mm

Valve - 40mm

Advantages and innovations

The company uses modern technologies and constantly update the park equipment. Ukrainian manufacture produces certified, safe and environmentally friendly products. The main raw materials for production are supplied directly from manufacturers. In production the company uses only film materials and modern technologies of Europe countries. The companu`s packaging can be used for food or have direct contact with the consumer, so managers make sure that the product meets all safety requirements.
